

Student Comments for RUSSELL-BROWN, SHERRIE LYNNE for Fall 2014

Course	Comments
HR 20000 Sec: 04	Professor Russell-Brown is easily one of the most engaging, thorough, caring professors at Hunter. She always encourages discussion in class and creates a comfortable environment for discussion and real learning. Despite her vast knowledge and experience in the field, she treats students in a respectful manner and is always genuinely interested in her students opinions of social justice questions. Her class made me look at Human Rights issues in a way I never have before and always had me actively engaged and thinking about the material we were covering long after class ended.
	One of the best professors I've had at Hunter! I wish she taught more classes for me to take. I actually ENJOYED going to class, above any other. Just an overall good energy and aura even when discussing difficult issues. Its a class i have already recommended to my friends.
	Great Class!!! Great Professor!!! She is always willing to help and shows care and concern for others!!! She is a fantastic role model!!!! Thank you very much, Dear Professor!!! Hope to see you next semester!!
	Literally the best professor I have ever had the pleasure of taking in my entire college career, actually the best in my entire educational career. I am honestly saddened to have left this class. I can not wait for Professor R-B to teach another class so I can take it.
	BEST PROFESSOR EVER!! Extremely devoted to students, has made me love college!
	One of the most respectful and organized instructors I have ever had. I highly recommend her course to everyone. Treats students as equals and makes everyone feel comfortable.
	Professor Russel-Brown was one of my favorite professors here at Hunter. This class was enjoyable and she is a very likable person. My knowledge has expanded so much and my interest in human rights has greatly increased. There is a lot of reading required with this class so I would recommend it to someone with a light workload because with my workload (a job, 5 classes - reading&writing intensive, volunteering and family issues), it was very hard to keep up. 5/5.
	Excellent, warm professor. Someone that I feel I can look to as a mentor. Because of Prof R-B, I am much more inclined to take more Human Rights classes. She is wonderful, welcoming of all types of opinions and ideas.
	It was such a pleasure to be part of your class this semester. It was absolutely one of my favorite classes and I'm so glad I got the chance to take it!
HR 33200 Sec: 01	Professor RB is a really amazing person. I loved her class and enthusiasm for her students and course material. However, she should work on being more assertive. There were a few 'mouthy' students in our class, and in an effort to be polite, she would let them go on long-winded and unnecessary tangents. She should have allowed them their due 1/2 minutes of speaking time and then kept it moving. It was really frustrating as a student to hear the same 3/4 people talk the entire class period over and over. Furthermore, Professor RB would ask the students for a lot of course input which was cool to a point. She just has to have clearly defined objectives and not care if students are unhappy. Every student is going to try and talk their way out of work if they have the chance. All in all, she's a great professor.
	Loved this professor! She treated everyone fairly and was super nice
	THE CLASS WAS EXCELLENT!!!!
	Incredibly insightful and extremely helpful! One of the many gems in the Human Rights program, and allows for activism and participation in human rights events!
	You're the best! :)
	Best. Professor. Ever. I very much enjoyed taking this class. The breadth of the professor's knowledge and her willingness to share it were evident in class discussions. I could not have been more thankful for the opportunity.
